

Interstate 405 Express Toll Lanes/State Route 167 HOT Lanes

Executive summary

Both facilities continue to meet WSDOT's goals of allowing drivers a choice for a faster, more reliable trip while covering the costs of operation and saving funds for future improvements.

GOAL 1 Provide a choice to people

- On average 42,000 drivers a day choose to pay a toll to use the I-405 Express Toll Lanes (ETL), while 20,000 drive toll-free. Drivers pay an average toll rate of \$4.36 for peak period, peak direction trips.
- An average of 6,200 drivers pay a toll to use the SR 167 HOT lanes each day. The average peak period, peak direction toll is \$4.96.

GOAL 2 Provide a faster, more predictable trip

- Drivers saved an average of 11 minutes using the express toll lanes compared to the general purpose lanes on trips between Bellevue and Lynnwood during peak periods.
- On SR 167 drivers saved an average of 9 minutes using the HOT lanes during peak periods.
- Both the I-405 express toll lanes and SR 167 HOT lanes continue to maintain speeds greater than their general purpose counter parts in all sections.

GOAL 3 Generate revenue to reinvest in the corridor

- I-405 and SR 167 continue to generate revenue exceeding the facilities' operational and maintenance costs.
- This leaves additional revenue each month to be reinvested in improvements on the I-405 and SR 167 corridors.
- Financial data is posted quarterly on WSDOT's financial and performance reports webpage: wsdot.gov/tolling/publications.htm.

This is the first I-405 express toll lane quarterly report to include certain performance measures for the SR 167 HOT lanes. As directed by the Legislature, the two facilities' finances were combined in July 2019, and will be reported on jointly moving forward. This is also the first report to use this new streamlined format.

NOTES

This is the first time we have reported on the percentage of time speeds are at 45 mph on a quarterly basis. The Federal Highway Administration recommends collecting the data in six month windows as three months of data is more susceptible to being skewed by traffic collisions, events, and other short-term effects.

Average peak period toll lane speeds compared to average general purpose lane speeds from July to September 2019.

Legal reporting requirements

In its 2011 authorization of the I-405 express toll lanes (RCW 47.56.880), the Legislature directed WSDOT to monitor and report on certain performance metrics on an annual basis. ESHB 2524 209 (7), from the 2016 budget, and ESHB 1160 209 (2, 8), from the 2019 budget, required quarterly reporting on the previously required metrics, and included additional performance measures.

The following chart notes the monitoring requirements and where to locate the data in this report.

LEGISLATIVE MONITORING REQUIREMENT		REPORT SECTION REFERENCE
A	Whether the express toll lanes maintain speeds of forty-five miles per hour at least ninety percent of the time during peak periods.	I-405 Page 3A, 7A Includes total percentage, and percentage split by section. SR 167 Page 3A, 7A. Includes total percentage.
B	Whether the average traffic speed changed in the general purpose lanes.	I-405 Page 3B SR 167 Page 3B
C	Whether transit ridership changed.	I-405 Page 3C. No remarkable changes or trends SR 167 Previously this was required annually. No remarkable changes or trends.
D	Whether the actual use of the express toll lanes is consistent with the projected use.	We have exceeded original forecasts for both facilities and will no longer be reporting.
E	Whether the express toll lanes generated sufficient revenue to pay for all I-405 express toll lane operating costs.	The revenue continues to cover the operational and maintenance costs for both facilities.
F	Whether travel times and volumes have increased or decreased on adjacent local streets and state highways	I-405 Page 3F SR 167 This requirement was imposed 10 years after the creation of the HOT Lanes and we don't currently have equipment in place to collect this data.
G	Whether the actual gross revenues are consistent with projected gross revenues as identified in the fiscal note for EHB 1382 distributed by the Office of Financial Management on March 15, 2011	We have far exceeded the original forecasts and will no longer be reporting on this, unless we fall below forecasts.
H	Travel times and travel time reliability maintained in the system	Compares minimum, average and 95th percent travel times at peak and non-peak periods, compares express toll lanes to general purpose lanes, in both the entire corridor and commonly made trips within the corridor. I-405 Page 4H-6H SR 167 Not required
I	Travel times and travel time reliability compared to pre-tolling.	A month-to-month comparison of times and reliability for the entire corridor and commonly made trips within the corridor. I-405 Page 4I-6II SR 167 Not required
J	Comparison of traffic volumes by lane type and month-to-month	Total express toll lane and total general purpose lane traffic volumes, comparisons of each type of lane, and to pre-tolling volumes, and a month-to-month comparison. I-405 Page 6J SR 167 Not required
K	Washington State Patrol enforcement hours	A monthly total of enforcement hours spent on each facility. I-405 Page 7K SR 167: Page 7K
